Vasileios Varveroglou

Full Stack Developer

Pangaio, Eastern Macedonia and Thrace, Greece

Summary

I am a Full Stack Developer with 3 years of professional experience, working in a global enterprise environment. I hold a Bachelor's degree in Computer Science and Engineering and I am currently completing my Master's degree in Cybersecurity.

In my role, I contribute to the design, development, and maintenance of scalable web applications using Node.js, Vue.js, TypeScript, PHP (Symfony), SQL, and Pinia. I am involved across the full development lifecycle, focusing on clean architecture, maintainable code, performance, and reliability.

Through my postgraduate studies, I am strengthening my knowledge in cybersecurity, secure software development, and application security. I am particularly interested in building systems that are not only efficient and scalable, but also secure by design.

I am always open to new challenges, continuous learning, and opportunities that allow me to grow both technically and professionally.
