PROFILE

Full Stack Developer with 4+ years of experience, including 3+ years at FactSet building enterprise-scale web applications with Vue.js, Node.js, TypeScript, PHP (Symfony) and SQL. Completing an MSc in Cybersecurity and applying secure-by-design principles daily. Ships own products end to end, from privacy-focused browser extensions to AI-powered web apps.

SKILLS

Frontend: Vue.js (Vue 3, Composition API), Nuxt 3, TypeScript, JavaScript (ES6+), Pinia, AngularJS, Tailwind CSS, HTML5, CSS3
Backend: Node.js, Express, PHP (Symfony), Python, RESTful APIs, Authentication & Authorization
Databases: PostgreSQL, SQL, MongoDB (Mongoose), Sequelize, Redis, Supabase
Security: Application Security, Secure Coding, DevSecOps, OWASP, Data Loss Prevention (DLP), Penetration Testing
AI: LLM API Integration (Groq/Llama, Google Gemini), Agentic AI, GraphRAG, Knowledge Graphs
Tools: Git, GitHub, Vercel, DigitalOcean, Azure, Chrome Extensions (Manifest V3), Agile/Scrum

EXPERIENCE

Full Stack Developer — FactSet (global financial data & software company)
Apr 2023 – Present

- Build and maintain enterprise-scale web applications with Vue.js, TypeScript, Pinia, Node.js, PHP (Symfony) and SQL.
- Develop reusable components and composables with the Vue 3 Composition API to keep large codebases clean and consistent.
- Work across the full development lifecycle (design, implementation, testing, code review, release), applying secure coding practices with a focus on performance and reliability.

Front-end Developer — StructWise (remote, part-time)
Oct 2023 – Apr 2024

- Delivered front-end features and UI for web products with AngularJS and Tailwind CSS, turning product requirements into responsive, reusable components alongside designers and backend engineers.

Junior Front-end Developer — Epsilon Informatics (Thessaloniki, Greece)
Apr 2021 – Apr 2022

- Implemented front-end features and interfaces for web projects in an Agile team, collaborating with designers and backend engineers on maintainable, user-focused solutions.

PROJECTS

Shadow AI — Firewall Extension & Admin Dashboard
Chrome Web Store

- Browser extension that masks PII, financial identifiers and secrets in requests to AI chat sites before they leave the browser, restoring readable text locally.
- Admin dashboard for teams: DLP-style policies, secret redaction and live session visibility without storing prompts.

Tech: TypeScript, Chrome Extensions (Manifest V3), Vue 3, Node.js, Tailwind CSS, Vercel

VibeBites — Social Cooking Platform
Live demo

- Greek-first recipe platform with meal planning, shopping lists, cooking mode and an AI fridge assistant that turns ingredients into recipes with macros; installable as a PWA.

Tech: Vue 3, TypeScript, Tailwind CSS, Groq (LLM API), PWA, Vercel

GraphRAG-PenTest — MSc Thesis
2026

- Neuro-symbolic AI system combining knowledge graphs and LLMs to guide penetration testing, with OWL ontologies based on OWASP, CVE/CWE and MITRE ATT&CK and natural-language-to-SPARQL queries.

Tech: Python, Apache Jena Fuseki, RDF/OWL, SPARQL, Groq (Llama 3), Vue 3, D3.js

BenefitPulse — Public Benefits Platform
Oct 2025 – Apr 2026

- Platform that helped citizens and businesses in Greece find active government benefits, vouchers and funding programmes in one place; built and deployed end to end.

Tech: Vue 3, TypeScript, Node.js, PostgreSQL, MongoDB, DigitalOcean

EDUCATION & LANGUAGES

MSc in Cybersecurity — International Hellenic University
Oct 2024 – Nov 2026 (expected)

BSc in Computer Science and Engineering — University of Thessaly
Sep 2017 – Apr 2022

Languages: Greek (Native), English (Full professional proficiency)

CERTIFICATIONS

Application Security in DevSecOps — LinkedIn, 2026
Agentic AI: Build Your First Agentic AI System — LinkedIn, 2026
Claude Code 101: From Prompt to Product — LinkedIn, 2026
Developing Secure Software — LinkedIn, 2024
Programming Foundations: Secure Coding — LinkedIn, 2024
Full-Stack JavaScript Course — Udemy
